

## **Slavoljub Todorović, a member of CGES Board of Directors**

Slavoljub Todorović is a highly qualified mining engineer with extensive professional experience in managing industry and infrastructure systems. Throughout his career, he has excelled in leadership positions at renowned companies, managing technical operations and strategic projects in mining, energy, and water supply.

He began his professional career in 1984 at Lead and Zinc Mine Zorka-Brskovo in Mojkovac, after graduating from the Faculty of Mining and Geology, majoring in mechanical engineering. From 1986 to 1991, he worked at Brown Coal Mine Ivangrad as the Technical Head of Electrical and Mechanical Maintenance and the Internal Transport Department, gaining valuable knowledge in industrial mechanization.

From 1991, he started working at Lime, Stone, and Quartz Plant Veljko Dugošević, first as the Technical Head of the Maintenance and Transport Department, and later as the Technical Director.

Between 1996 and 2003, he served as the Executive Director of Brickworks Rudeš, improving business processes and production efficiency.

Between 2007 and 2008, he served as Construction Manager at AM Trade company in Russia, managing large-scale infrastructure projects. Upon returning, from 2008 to 2012, he took on the role of Head of Mechanization at Integral Engineering.

His professional experience expanded further with roles at Aqualia Intech Podgorica and Berane Mines, holding senior positions.

Since 2022, he has held the position of Waste Water Treatment Plant Manager at the national company Water and Sewage in Berane, overseeing system operation and enhancing its efficiency.

With more than three decades of experience in leadership, improving technical processes, and strategic management, Slavoljub Todorović is regarded as a distinguished expert in the industry, with significant contributions to energy, mining, and engineering.
